

Tanushri Dhote

Full Stack Developer

✉ devtanushri22@gmail.com | ☎ +91-8080724453 | Plot No.307, Sembekar Layout, Saoner-441107

OBJECTIVE

To secure a challenging position as a Full Stack Developer where I can leverage my experience in building scalable web applications, contribute to high-quality government and private software solutions, and continuously enhance my technical and problem-solving skills.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering
RTMNU University, Nagpur

Aug 2019 - April 2023

SKILLS

Frameworks Libraries: React.js, Node.js, Express.js, Bootstrap, jQuery, Next.js

Programming Languages: JavaScript, HTML5, CSS3, C, OOP

Database: MongoDB

Tools: Git, GitHub, VS Code, Firebase, Thunder Client, Postman

Others: RESTful APIs, Responsive Design, Chakra UI, Recharts, Chart.js

EXPERIENCE

RSSC Technologies Private Limited | Full Stack Developer

Feb 2026 – Present

- Optimised web application performance and improved backend logic.
- Resolved client issues by debugging production systems.
- Developed automated web scraping solutions for sales and rental property listings.
- Built scraping pipelines using Node.js, Playwright, and Crawlee.
- Managed scraped property data using MySQL.
- Worked on Industrial Marketplace (UK), developing marketplace features, product management, user authentication, order workflows, and admin functionalities using React.js, Node.js, Express.js, MongoDB, fastify, HTML5, CSS3, and JavaScript.
- Developed features for Diaspora Marketplace (UK) using React.js and Chakra UI, implementing responsive user interfaces, API integration, product listings, shopping workflows, and admin dashboards.
- Contributed to Labour Connect by developing backend REST APIs, authentication, subscription management, employer and worker modules, and database design using Node.js, Express.js, Fastify, and MongoDB.
- Collaborated with cross-functional teams using Git and Agile methodologies to deliver production-ready features within deadlines.

All Indian IT Services Nagpur | MERN Stack Developer

June 2025 – Feb 2026

- Developed the **public district dashboard** for Yavatmal, providing comprehensive analytics and insights on geography, population, administration, literacy, and development data.
- Implemented dashboards for multiple departments and schemes (Revenue, Tribal, Agriculture, etc.) with dynamic filters to help users explore district-wide program performance data.
- **Integrated OpenAI-powered data analysis features**, allowing users to ask natural-language questions and receive instant insights, summaries, and trend analysis from dashboard data.
- Implemented AI-assisted **data interpretation and explanation** to help non-technical users easily understand complex government statistics.
- Designed and developed a **Government Web Portal for Zudpi Land Survey** to manage land encroachment and survey records across multiple administrative levels.
- Implemented **role-based access control (RBAC)** for Admin, Divisional Officer, Collector, Tahsildar, and Talati, ensuring secure and authorized access to data.
- Enabled **PDF, Excel, and ZIP exports** for single and bulk survey downloads to support official reporting.
- Created and optimized **RESTful APIs** using Node.js and Express.js for surveys, users, approvals, and reports.
- Designed efficient **MongoDB schemas** with indexing to handle large-scale government survey data.

- Developed and maintained **full-stack web applications** using the MERN stack ensuring high performance and scalability.
- Built and optimized over **20 RESTful APIs** to manage content and user interactions, reducing latency through efficient query handling.
- Developed responsive interfaces with **React.js** and **Context API**, improving user experience across devices.
- Engineered robust **NoSQL database solutions** in MongoDB with efficient indexing and optimized queries.
- Deployed applications on **AWS cloud platforms** for scalability and performance.
- Used **Git and GitHub** for version control and collaborative development.
- Improved code quality and consistency by implementing **ESLint** and **Prettier** across team projects.
- Integrated **Firebase services** for authentication and analytics to enhance application functionality.

ACHIEVEMENTS

- Awarded **Best Performance** of the Year – 2024 at PSK Technologies for exceptional development and delivery.
- Delivered 100+ scalable **RESTful APIs** capable of supporting thousands of concurrent users.
